

**CALAVERAS COUNTY
GENERAL PLAN
TABLE OF CONTENTS**

Chapter	Page
I. Introduction	I-1
1.0 The Calaveras County General Plan and Related Land Use Documents	I-1
1.1 General Plan Elements	I-1
1.2 Internal Consistency	I-2
1.3 Definitions of Maps, Goals, Policies, and Implementation Measures	I-2
1.4 General Plan Amendments	I-4
1.5 Area Plans	I-4
1.6 Zoning, Subdivision and Road Ordinances	I-4
1.7 Other Planning Documents	I-5
2.0 County Description	I-5
2.1 Climate	I-5
2.2 History	I-6
2.3 Economy	I-6
II. Land Use Element	II-1
1.0 Introduction	II-1
1.1 Legal Authority	II-1
1.2 Relationship to Other General Plan Elements	II-2
1.3 Land Use Categories	II-2
1.4 Determining Maximum Densities	II-4
1.5 Development Flexibility	II-4
2.0 Natural Resource Lands	II-5
3.0 Community Development Lands	II-6
3.1 Community Plan Areas (PRC Section 21083.3)	II-6

3.2	Special Plan Areas (CGC Section 65302)	II-8
3.3	Specific Plan Areas (CGC Section 65454)	II-9
3.4	City of Angels Sphere of Influence	II-11
3.5	Mixed Use/Master Project Area	II-13
3.6	Community Centers	II-14
3.7	Residential Centers	II-17
3.8	Single Family Residential Areas	II-18
4.0	Industrial Areas	II-20
4.1	Industrial Corridor	II-21
4.2	Rural Home Industries	II-23
5.0	Recreation Oriented Commercial	II-23
6.0	Business in the Home	II-30
7.0	Legally Existing Nonconforming Land uses and Zoning	II-31
8.0	Schools	II-33
9.0	Waste Disposal System	II-34
9.1	Solid and Liquid Waste	II-34
9.2	Sewage	II-36
III.	Circulation Element	III-1
1.1	Legal Authority	III-1
1.2	Relationship to Other Elements	III-1
Part 1: ROAD SYSTEM		III-1
2.0	Introduction	III-1
2.1	Definitions	III-1
3.0	Public and Private Roads, New Construction, Access	III-5
4.0	State Highways	III-10
4.1	State Highways	III-10
4.2	State Highway Improvements	III-11
4.3	Scheduling Improvements	III-12

5.0	County Roads	III-16	
5.1	Development Impacts		III-16
6.0	Private Roads	III-19	
7.0	Road Maintenance	III-20	
8.0	Other Road Issues	III-22	
8.1	Road Encroachments	III-22	
8.2	Snow Removal	III-22	
8.3	Mining and Timber Production	III-23	
Part 2: TRANSPORTATION SYSTEM		III-24	
1.0	Scenic Highways	III-24	
1.1	State Scenic Highways	III-24	
1.2	Locally Designated Scenic Highways		III-24
2.0	Public Transit	III-25	
2.1	Car and Van Pools	III-25	
3.0	Airports	III-26	
3.1	Private Airfields	III-26	
3.2	Public Airports	III-27	
4.0	Railroads	III-28	
5.0	Pipelines	III-29	
6.0	Bicycle, Pedestrian and Equestrian Travel	III-30	
IV.	Conservation Element	IV-1	
1.0	Introduction	IV-1	
1.1	Legal Authority	IV-1	
1.2	Relationship to Other Elements	IV-1	
2.0	Soils	IV-1	
3.0	Agriculture Lands	IV-4	
3.1	Agriculture Production	IV-4	
3.1	Williamson Act lands	IV-6	

4.0	Forest Resources	IV-8	
4.1	Timber Production		IV-9
5.0	Mineral Resources	IV-11	
5.1	Mining History		IV-11
5.2	Mining Operations		IV-11
5.3	Potential Mineral Resources		IV-11
5.4	Land Use Compatibility and Reclamation		IV-15
5.5	Mineral Resource Designation		IV-15
6.0	Water Resources	IV-18	
6.1	Precipitation		IV-19
6.2	Surface Water resources		IV-19
6.3	Public Water/Utilities		IV-25
7.0	Energy System	IV-26	
V.	Open Space Element		V-1
1.0	Introduction	V-1	
1.1	Legal Authority		V-1
1.2	Relationship to Other Elements		V-1
2.0	Ecological Resource Areas	V-2	
2.1	Rare Natural Plant Communities		V-2
2.2	Significant Vegetative Habitat		V-4
2.3	Significant Wildlife Habitat		V-5
3.0	Cultural, Historic and Scenic Resources	V-12	
3.1	Areas of Archaeological Importance		V-12
3.2	Significant Cultural and Historical Areas		V-14
3.3	Areas of Outstanding Scenic Value		V-15
4.0	Recreational Resources	V-15	
4.1	Parks and Reserves		V-17
4.2	Federal Lands and Recreational Opportunities		V-17
4.3	State Recreation Areas		V-18
4.4	Reservoir Recreation Areas		V-18
4.5	Local Recreation Areas		V-20

VI.	Noise Element	VI-1
	1.0 Introduction	VI-1
	1.1 Legal Authority	VI-1
	1.2 Relationship to Other Elements	VI-2
	2.0 Major Noise Sources	VI-2
	2.1 Traffic noise	VI-2
	2.2 Railroad Noise	VI-7
	2.3 Airport Noise	VI-8
	2.4 Fixed Noise Sources	VI-8
	3.0 Noise Sensitive Uses	VI-9
VII.	Safety Element	VII-1
	1.0 Introduction	VII-1
	1.1 Legal Authority	VII-1
	1.2 Relationship to Other Elements	VII-1
	2.0 Seismic, Geologic, and Soil Hazards	VII-1
	2.1 Seismicity	VII-1
	2.2 Groundshaking	VII-3
	2.3 Liquefaction Hazards	VII-3
	2.4 Slope Instability	VII-3
	2.5 Expansive Soils	VII-4
	2.6 Erosion	VII-4
	3.0 Fire Hazards	VII-9
	3.1 Fire Protection Services and Fire Rating	VII-11
	4.0 Flood Hazards	VII-13
	4.1 Dam Failure Inundation	VII-16
	5.0 Hazardous Materials	VII-17
	5.1 Indigenous Hazardous Materials	VII-17
	5.2 Imported Hazardous Materials	VII-17
	6.0 Airport Operations	VII-19
	7.0 General Safety	VII-19

VIII.	Housing Element	VIII-1
	1.0 Housing Needs in Calaveras County	VIII-1
	2.0 Inventory of Housing Resources	VIII-2
	3.0 Constraints on Maintenance,	
	Improvement and Development	VIII-3
	3.1 Government Controls	VIII-3
	3.2 Availability of Financing	VIII-5
	3.3 Land and Construction Costs	VIII-6
	3.4 Public Facilities and Services	VIII-6
	3.5 Housing Assistance Programs	VIII-7
	3.6 Energy Conservation Opportunities	VIII-8
Appendices	Land Use	
	Circulation	
	Conservation	
	Open Space	
	Noise	
List of Tables		
	Table II-1 Population, History and Projections	II-1
	Table II-2 Natural Resource/ Community	II-4
	Development Distribution	
	Table II-3 City of Angels Sphere of Influence	II-13
	Table II-4 Population Density / Building Intensity	II-25
	Consistent Zones	
	Table III-1 Level of Service (LOS)	III-2
	Table III-2 Proportional Share of Traffic	III-3
	Table III-3 Concept LOS	III-13
	Table III-4 Sources of Road Improvement Funds	III-17
	Table IV-1 Value of Agriculture Production	IV-4
	Table IV-2 Livestock Production and Value	IV-5
	Table IV-3 Crop Acreage, Production and Value	IV-5
	Table IV-4 Mineral Resource Areas	IV-17
	Table IV-5 Major Reservoirs	IV-20
	Table IV-6 Public Agency Water Purveyors	IV-25
	Table IV-7 Mutual Water Companies	IV-25
	Table V-1 Special Status Plant Species	V-4
	Table V-2 Special Status and Other Animal Species	V-8
	Table V-3 Calaveras County Recreation Acreage	V-15
	Table VI-1 Distance from Roadway Centerlines to	VI-4
	Existing and Future 60 dB L _{dn} Traffic Noise Level Contours	

Table VI-2	Traffic Noise Adjustments for various Topographic Conditions	VI-7
Table VI-3	Approximate Distance to railroad Noise Contours as a Function of Daily Activity	VI-8
Table VII-1	Modified Meccalli Intensity Scale (Abridged)	VII-2
Table VII-2	Soils Groups with Moderate to High Shrink-Swell Potential	VII-4
Table VII-3	Soils Groups with Moderate to High Erosion Potential	VII-8
Table VII-4	Wildland Fire Protection Zones	VII-11
Table A	Housing Program Implementation and Quantified Objectives 1992 to 1997	VIII-13

List of Figures

Future Land Use Plan	II-3
City of Angels, Sphere of Influence map	II-12
Solid Waste Facilities map	II-35
Transportation Plan map 1	III-6
Transportation Plan map 2	III-7
Transportation Plan map 3	III-8
Transportation Plan map 4	III-9
Soil Types map	IV-2
High Capability Agriculture Lands map	IV-7
High Capability Timberlands map	IV-10
Mine Locations map	IV-12
Mineral Resource map	IV-13
Potential Mineral Resource Areas map	IV-16
Water Resources	IV-21
Groundwater Potential map	IV-24
Vegetation Data map	V-3
Key Wildlife Habitats map	V-6
Significant Wildlife Habitats map	V-7
Archaeological Sensitivity map	V-13
Major Recreation Areas map	V-16
Noise Sources map	VI-3
Distance to 60 dB L_{dn} Contour chart	VI-6
Slopes and Fault Zones map	VII-5
Erosion Potential map	VII-6
Fire Protection Zones map	VII-9
Flood Zones map	VII-13
Surface Water map	VII-14
